

July 12, 1983, p. 4

that fact, however, doesn't help the "low" to go away.
Certain things have to run their course, and this low
will evaporate anon.

- SRP and RGT visit with Bob Difano at the Y : July 11
- the Monahan woman at the CHS allows
Mason and John K. to borrow a collection
of photographs from the Monahan era] — July 12

July 12 - 1 PM — I ran into Bob Maguire on South Main
Street and told him that the CHS+M will
participate in the Pioneer Days Parade. He assured
me that the Cars that we walked along beside
could and would all be in one group, one after
the other. He asked me to write him a letter and
put it on paper, and so I will.

July 12, 11:30 AM — I took the ^{CHS+M} "copy" for the ad that
the Pioneer Days booklet will contain over to
Jerry Paeko at the Times. The ad was all set
and ready to be pasted down. Jerry was very
friendly. He spoke enthusiastically about the
restoration of City Hall. Told me that the Pioneer
Days Committee would lend the Historical Society
\$6,000 if we needed it for a matching grant
proposal; told me that the Historical Society
should have all of City Hall; told me that the
Pioneer Days Committee is interested in restoring a
room in City Hall; told me that the entire CHS+M
lecture series program will be included in the
publicity put forth by the PD Committee. He was
throwing me bouquet after another. I was weak in
the knees almost. It was extremely gratifying.
He said that as long as he is around, no one is
going to tear down City Hall. "If I have to, I'll
chain myself to the building," said Paeko.
